the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 1999).

There is a growing awareness of the need to address the needs of people with mental health problems in the community. The Department of Health (1999) has set out a vision for the future of mental health services, which includes a focus on preventing mental health problems, supporting people with mental health problems in the community, and providing specialist services for people with severe mental health problems. The vision is based on the principles of recovery, which emphasizes the importance of helping people to live meaningful lives and to achieve their goals.

One of the key challenges in implementing this vision is the need to develop a workforce that is equipped to provide the range of services that are required. This includes a range of professionals, including mental health nurses, social workers, psychologists, and other mental health professionals. It also includes a range of support workers, including care assistants and housing officers. The workforce must be able to work in a range of settings, including hospitals, community mental health teams, and the private sector.

One of the ways in which the workforce can be developed is through the use of training and development programs. These programs can help to ensure that the workforce has the skills and knowledge that are required to provide the services that are required. They can also help to ensure that the workforce is able to work in a way that is consistent with the principles of recovery.

To replace the large number of teachers who retired in 1999, many new teachers were hired, like Mrs. Karl Roach, talking to Mr. Dave Barancyk at the annual Career Fair which Mrs. Roach help to organize.

Wooden benches were built by students, like Trent Overturf, to be used in the auditorium lobby.

For the first time in over 40 years, graduation took place in Brickie Bowl. Luckily, the weather cooperated.

# HHS Students Reach Beyond the Limits

Although the hype about Y2K and the transition from the 1900's to the year 2000 was ever present, we HHS students were pretty much business as usual. We had survived the first year of four-block scheduling, and, except for the freshmen, we were more expert at it than the many new teachers who came to HHS for the first time.

From the freshmen, who were just beginning their high school careers, to the seniors, who were ending an important part of their lives and embarking on a new one, this was the time to try new things, search for other options, develop new ideas, and, most importantly, to

The dreadful events that plagued the life of John F. Kennedy Jr. painted an eerie backdrop for the tragic plane crash that killed him, his wife, Carolyn Bessette Kennedy, and her sister, Lauren Bessette. The bodies of the three victims were recovered July 21 by divers in the Atlantic about seven miles off Martha's Vineyard, where the Piper Saratoga II Kennedy was piloting crashed five days before. In the end, the nation and the world were left to mourn the loss of a man they came to know as a little boy, saluting the casket of his assassinated father, a boy who grew up to inherit the bittersweet Kennedy legacy.

# Retrospective

An Overview of Events and Personalities of the Year

Deadly earthquakes rocked the globe from Mexico to Taiwan, killing more than 21,000 in the span of four months. The year's most catastrophic earthquake occurred August 17 in Turkey, where nearly 17,000 people perished. The earthquake in Turkey measured 7.6 on the Richter scale and was followed by several serious aftershocks, which destroyed thousands of buildings and left hundreds of thousands of people homeless and living in tent cities.

All 217 passengers on EgyptAir Flight 990 were killed in October when the Boeing 767 crashed into the Atlantic off the Massachusetts coast. As search crews recovered pieces of the airliner from the ocean floor, speculation mounted that relief pilot Gamal al-Batouty intentionally crashed the plane. Information collected from the flight data recorder revealed that Batouty had turned off the engines and deployed the speed brakes. Although U.S. investigators suspected that Batouty had a death wish, no suicide note or evidence of terrorism emerged.

After predictions of the Apocalypse spurred years of preparations and precautionary spending in excess of \$500 billion worldwide, the year 2000 came without incident. Y2K brought only minor glitches despite concerns over a technologically triggered Doomsday. As celebration of the new year subsided, there was growing criticism of the media, the government and a multitude of entrepreneurs for their part in the Y2K hysteria. Also at issue was the question of the new millennium, with purists arguing that it was still a year away.

Pokémon, Japan's cuddly cartoon critters, created a frenzy for children of all ages with toys, video games, comic books, trading cards and a feature film. The animated "pocket monsters" also invaded television with a weekly cartoon series. The Pokémon franchise exploded with more than \$6 billion in sales worldwide, making it even more profitable than the entire video game industry.

Charles Schulz bid a fond farewell to millions of fans all over the world in January when retiring the beloved "Peanuts" comic strip he had penned for more than 50 years. Increasingly poor health made retirement necessary for Schulz, who had several small strokes and was suffering from Parkinson's disease and colon cancer. At the end of its historic run, "Peanuts" appeared in 2,600 newspapers in 75 countries and 21 languages, making it the world's most widely read comic strip.

The New York Yankees put the finishing touches on their "Team of the Century" designation by sweeping the Atlanta Braves in the World Series in October. By beating the Braves, the Yankees claimed their second-straight world championship sweep and the team's 25th World Series win overall. The Yankees are the only team in baseball history to chart back-to-back sweeps in the World Series, having done it three times.

ABC's surprise hit "Who Wants to Be a Millionaire" brought television full-circle from its infancy, when prime-time game shows were a mainstay. Hosted by TV's crafty quipster, Regis Philbin, the show became an instant phenomenon and gave ABC its first sweeps win in five years. The other major networks quickly followed suit with their own quiz-show clones, such as FOX's "Greed" and "Twenty One" on NBC.

The U.S. women's soccer team battled for 120 minutes to a scoreless tie before defeating China, 5-4, on penalty kicks in the World Cup Final in July. The exciting win captured the heart of America, resulting in hero status for the team's 20 members and energizing women's sports overall. Additionally, the World Cup championship was credited for boosting soccer's marginal stature in the United States.

In the highest scoring Sugar Bowl game ever played, top-ranked Florida State outlasted No. 2 Virginia Tech, 46-29, to claim college football's National Championship in January. The Seminoles trailed the Hokies late in the third quarter before scoring 18 unanswered points for the win. Florida State ended the season with a perfect 12-0 record and became the first team to start and finish a season ranked No. 1 since the preseason ratings system began in 1950.

Then, on the next kick off, the juniors recovered another senior fumble. Sarah Ward scored another junior touchdown a few plays later.

"It was fun. With a little more practice, we could have beaten the juniors."

Heather Storey

The final junior score came when Erin Wright made a 32-yard run late in the fourth quarter. The seniors didn't score until half way through the fourth quarter, when Jackie Corgan ran five yards into the goal. The final senior score came on a three-yard run from Amanda Crawford.

## Girls get new coach

# Gymnastics

The gymnastics team finished its season at sectionals where the team placed fourth. Only the top three teams advance to regionals. At sectionals, Jill Locke placed seventh on beam and eighth all-around, but only the first six individuals advance.

Chris Jetmund was the new coach, and she brought the meets back to HHS from an elementary school which she said made the team feel like a high school sport again.

The girls finished fourth in the Duneland Conference meet and had a 4-3 conference record. The captains were Jill Locke and Lisa Kerlin.

Another highlight of the season was when Jill Locke tied the balance beam record with a score of 9.45. Jill was named the Most Valuable Player, while Erica Kietzman was named Most Improved.

Lisa Warren was given the Pride, Hustle and Desire Award as well as the Best Mental Attitude Award.

Coach Jetmund said that at conference and sectionals, "all the girls gave it their all and did the best meets of their lives."

She added that even though the team was young, the members worked well together.

## Through the Years

2000

*Katie,  
The time has come to spread your wings,  
To explore the world and find your dreams.  
You've been with us for 17 years,  
Now it's time to fly among your peers.  
You've become a young lady before our eyes.  
You're dependable, caring and even wise.  
You've been a great daughter, sister and friend.  
Our love and respect for you will never end.  
It's not going to be easy to let you go,  
We can only pray for God's protection as you grow.  
The day will come when you return again,  
With 17 behind you, a new life to begin.  
Although you don't know what life has in store,  
We will always be here with an open door.

We've been through a lot together  
A lot of stuff we've done,  
From days of snowy weather  
To days at the beach in the sun.  
We know each other's secrets  
And, of course, our favorite songs.  
We've learned some tough lessons  
From the times we didn't get along.  
Still, through it all, side by side we stand.  
What close friends we've become!  
As for the future, who knows what will be at hand.  
One thing's for sure, watch out IU, here we come!

This is the word I think of when I look back on the days of you being a pumpkin to becoming a princess. I am so glad you stayed yourself and never became a follower. Watching you grow has been a beautiful miracle. We are very proud of the woman you have become. We have gone through rough times together and learned a lot of things that have made us stronger. God has a path for you that will be filled with so many blessings. Just look to him for guidance as you proceed through life. It seems scary now but think of life as an adventure, the middle of the book, and you get to determine the outcome.

We wish you happiness, serenity, success and LOVE. As you begin your journey of adulthood, know you are not alone. We love you very much and

**CONGRATULATIONS.**

Kevin,  
 You're "Kev" to us but to your friends you're "Furball"  
 Our pride and our joy since you were so small  
 We've watched you grow up all these past years  
 Shared your laughter, your joy and even your tears  
 Now you're a fine, handsome, intelligent young man  
 One we're so proud of, cause we know that you can  
 Succeed in anything you put your mind to, all of your dreams  
 Just believe in yourself, as difficult as it sometimes seems  
 And please know that we'll always be there for you  
 To love and support you in all that you do.

*Congratulations and a lifetime of happiness!*

And value those as friends who feel the same,  
If you take pride in things that you've accomplished,  
And when you're wrong, stand up and take the blame...*

*If you can understand your limitations  
And not waste time on tasks beyond your scope,  
But take the future as a brand-new challenge  
That you can meet with confidence and hope...*

*If you can listen to those who would advise you  
And judge for yourself just what is right,  
If you can keep in touch with all about you  
And settle differences without a fight...*

And see the rainbow, not the falling rain,  
If you can lose and never give up trying,  
Believing that there's nothing done in vain...*

And not let others set your goals for you,

# Mr. Jim Johnston, Mrs. Pat Banks retire

After 39 years of teaching at Hobart schools, HHS graduate, Mr. Jim Johnston, retired.

Mr. Johnston attended Purdue University for his bachelors degree and received his masters degree from Indiana State University.

He started out teaching science, social studies, and health at what was then the junior high from 1961-1963. Then in 1965, he joined the HHS faculty where he taught biology for 17 years, became basketball coach and then dean of boys.

In 1970 Mr. Johnston left his dean of boys position and stopped coaching basketball.

He had been involved in track program since 1962, and in 1975 became head track coach.

He also taught substance abuse, drivers education and physical education, but he has taught health since the mid-1980's.

Former athletic director, Mr. Frank Kurth, was the one who inspired Mr. Johnston to become a teacher, "He was the most meaningful person in my life," he added.

After working for 27 years under six different principals, Mrs. Pat Banks, the library secretary, retired.

Although Mrs. Banks worked her whole HHS career in the library, she also helped out in the main office and the old attendance office.

Mrs. Banks said that she will miss "seeing all the wonderful friends and students I have gotten to know."

When asked how teaching has changed through the years, Mr. Johnston said, "There is less discipline given to the students and less respect taken from the teachers."

The thing he will miss at HHS is being around all the students "It's the fountain of youth of all the young people." However, he will not miss the routine of grading papers, giving tests, and seeing the rebellious moods of the kids.

The most positive memorable moment at HHS for Mr. Johnston was when he got to come back to HHS to work. "I'm a true Brickie!" However, he said the worst was when he got fired from being basketball coach.

Over the years, Mr. Johnston has seen fewer and fewer students wanting to learn. He referred to them as "academic pirates." However, he said, "There are a lot of good kids here."

Mr. Johnston's retirement plans include working in his yard, helping to raise his grandchildren and building cars. He added, "I love cars."

However, she won't miss getting up at 5 a.m.

She the best part of her job was, "Everything I learned. No two days were the same." She will also miss the time on her "user-friendly computer."

Mrs. Banks said of her retirement plans, "I would like to do some traveling, play golf and knit some long-overdue projects. I hope to make a quilt."

There is a growing emphasis on the need to improve the quality of health care, and to ensure that the health service is able to meet the needs of the population. This has led to a number of initiatives, including the introduction of the Health Service Act 1999, which sets out the framework for the health service, and the introduction of the Health Service Regulation Act 2000, which sets out the framework for the regulation of the health service. These initiatives have led to a number of changes in the way the health service is organised and delivered, and to a number of improvements in the quality of health care.

One of the key areas of focus for the health service is the need to improve the quality of patient care. This has led to a number of initiatives, including the introduction of the Health Service Act 1999, which sets out the framework for the health service, and the introduction of the Health Service Regulation Act 2000, which sets out the framework for the regulation of the health service.
